Pipeline for Innovation – 2006 Grant Application

Name: __________________________________________________________

Department: ______________________________________________________

Contact Information: ____________________________________________

Project Title: ____________________________________________________

Please provide the following information attached to this application form:

   **Abstract:** Briefly (100 words or less) describe the proposed project and the project objective.

   **Process:** What are you going to do? Specifically identify the process you will engage to implement the project.

   **Outcomes:** What is the expected outcome? For example, how will it improve student learning? Facilitate research efforts? Affect patient care?

   **Assessment:** How will you measure the outcome? Describe the assessment methods to be used to determine objective achievement.

   **Resources:** What do you need? Identify the resources needed to do the project. These may include human resources, hardware, software, training, technical support. Identify initial, replacement, maintenance and support expenditures where applicable. Budgets should be as detailed as possible.

   **Project Timeline:** Outline the planning, implementation, and assessment timeline for the project. Identify project milestones. As a reminder, all funds need to be spent by June 30, 2006. Progress reports must be submitted by September 15, 2006. Final reports are due January 12, 2007.
