

Tobacco smoke exposure and bombesin-like peptides in guinea pigs. Bergren, Dale. Peptides. 2002 May;23(5):919-26

Effect of elevated homocysteine on cardiac neural crest migration in vitro. Brauer PR, Rosenquist TH. Wiley-Liss, Inc. Dev Dyn. 2002 Jun;224(2):222-30.

Expression of tissue inhibitor of metalloproteinases (TIMPs) during early cardiac development. Brauer PR, Cai DH. Mech Dev. 2002 May;113(2):175-9.

The developmental segregation of posterior crista and saccular vestibular fibers in mice: a carbocyanine tracer study using confocal microscopy. Maklad A, Fritzschn B. Brain Res Dev Brain Res. 2002 Apr 30;135(1-2):1-17.

Cochlear whole mount in situ hybridization: identification of longitudinal and radial gradients. Judice TN, Nelson NC, Beisel CL, Delimont DC, Fritzschn B, Beisel KW. Brain Res Brain Res Protoc. 2002 Feb;9(1):65-76.

Distinct requirements for TrkB and TrkC signaling in target innervation by sensory neurons. Postigo A, Calella AM, Fritzschn B, Knipper M, Katz D, Eilers A, Schimmang T, Lewin G, Klein R, Minichiello L. Genes & Development, 2002, 16:633-645.

Auditory System Development: Primary Auditory Neurons and Their Targets. Ann Rev. Rubel EW, Fritzschn B, 2002, Neurosci., 25:51-101.

Conserved, Erythropoietin-Responsive VL30 Promoters Isolated from Erythroid Progenitor Cells. Staplin WR, Hodgson CP, Knezetic JA. Blood Cells Mol Dis. 2002 Mar-Apr;28(2):275-82.

A hMLH1 genomic mutation and associated novel mRNA defects in a hereditary non-polyposis colorectal cancer family. Tanko Q, Franklin B, Lynch H, Knezetic J. Mutat Res. 2002 Jun 19;503(1-2):37-42.

The role of oxygen-derived free radicals and nitric oxide in cytokine-induced antiproliferation of pancreatic cancer cells. Thomas WJ, Thomas DL, Knezetic JA, Adrian TE. Pancreas. 2002 Mar;24(2):161-8.

Phenotypic variation in eight extended CDKN2A germline mutation familial atypical multiple mole melanoma-pancreatic carcinoma-prone families: the familial atypical mole melanoma-pancreatic carcinoma syndrome. Lynch HT, Brand RE, Hogg D, Deters CA, Fusaro RM, Lynch JF, Liu L, Knezetic J, Lassam NJ, Goggins M, Kern S. Cancer. 2002 Jan 1;94(1):84-96.

A specific binding site for a fragment of the B-loop of epidermal growth factor and related peptides. Gembitsky DS, Bozso Z, O'Flaherty M, Otvos F, Murphy RF, Lovas S. Peptides. 2002 Jan;23(1):97-102.

Characterization of gill Na/K-ATPase activity and ouabain binding in Antarctic and New Zealand nototheniid fishes. Guynn S, Dowd F, Petzel D. *Comp Biochem Physiol A Mol Integr Physiol.* 2002 Feb;131(2):363-74.

Effects of amylin-related peptides on food intake, meal patterns, and gastric emptying in rats. Reidelberger RD, Kelsey L, Heimann D. *Am J Physiol Regul Integr Comp Physiol.* 2002 May;282(5):R1395-404.

DMSO as a vehicle for central injections: tests with feeding elicited by norepinephrine injected into the paraventricular nucleus. Blevins JE, Stanley BG, Reidelberger RD. *Pharmacol Biochem Behav.* 2002 Jan-Feb;71(1-2):277-82.
