

First of all, welcome back to everyone and welcome to all our new students. I think you will find your, Creighton University School of Medicine, experience to not only be intellectually challenging but also personally enriching if you take advantage of activities outside of the classroom. I have provided information on activities that are available to you and I encourage you to consider attending. For those of you with significant others, please feel free to invite them as well. As always, if there is anything I can do for you please let me know.

May God continue to bless your lives,
Marcia
