RN TO BSN PROGRAM
 CREIGHTON ONLINE NURSING EDUCATION

Leading the Way

The RN to BSN Program is a newly designed curriculum offered **ONLINE** to provide the flexibility and convenience that you need to continue your education at a respected nursing school known for pioneering a better way — Creighton University.

Built on a proven formula first implemented by the Creighton University School of Pharmacy (the first accredited online Doctor of Pharmacy program in the nation), our web-centered approach allows you to balance your coursework with the demands of work and family. Frequent contact keeps you in close communication with faculty, advisors and fellow students. *A high-speed Internet connection is required.*

In addition to online work, you will attend three weekend sessions that provide opportunity for hands-on learning, face-to-face presentations and assessments, and special seminars—including an innovative

half-day conference on negotiation, conflict resolution and mediation that is unique to Creighton. On your first weekend experience, we will travel to the Creighton Retreat Center in Griswold, Iowa.

We help you develop the skills, knowledge, and lifelong learning proficiency necessary to practice in a myriad of clinical settings. You will learn how to manage and improve care—the cornerstones of our curriculum. And, you will develop and refine the leadership, critical thinking and clinical judgement skills that allow our graduates to participate as full partners in health care delivery and in shaping health policy.

Students who successfully complete the RN to BSN Program may apply to our Master's of Science program, which includes the new Clinical Nurse Leader role and various nurse practitioner and clinical nurse specialist options.

A Legacy of Success

At the Creighton University School of Nursing, we have been preparing BSN graduates for more than 50 years. Our proven program:

- Prepares excellent nurses who are strong in theoretical knowledge and clinical skills
- Provides an opportunity for career advancement efficiently and effectively
- Promotes a climate that respects each person's past experiences and builds on those strengths, skills and knowledge
- Earned Commission on Collegiate Nursing Education (CCNE) Accreditation

Classes begin in January for full-time study that is completed in one year. Other start times can be accommodated. We are happy to work with you to design your schedule based on your lifestyle.

Admission Requirements

- Current RN licensure required
- Official transcripts from every university and college attended
- Personal Statement
- Evidence of ability to successfully complete a rigorous academic load
- Two recommendation/appraisal forms to be completed. If you have graduated within past five years, one must be from Director of Nursing Program

Creighton University:

Creighton University, founded in 1878, is on the forefront as one of the finest Jesuit, Catholic universities in the United States. Creighton has achieved national designations for exceptional learning with three consecutive years as No. 1 of Midwestern universities in the *U.S. News & World Report* magazine's "America's Best Colleges" edition.

Creighton enrolls more than 6,800 students of diverse faiths and races from across the United States and more than

40 different countries. The student body is taught by 730 full-time faculty members in the Colleges of Arts and Sciences, Business Administration, the Graduate School, University College; and Schools of Dentistry, Law, Medicine, Nursing and Pharmacy and Health Professions.

The University is located in Omaha, Nebraska, (population 800,000 metro area) on a more than 100-acre campus adjacent to the downtown business district.
